

Special Invitation
Casting Technique according to sabbath
The Dental Cast
Precisely fitting-homogeneous-compatible

Evening workshop presented by Rudolf Kerschbaum (of Bredent Germany)

Receive 2 hours Verifiable CPD

A must for every dental technician involved in dental casting.

Perfectly matched components ensure stress free castings and guarantee the durability of dental restorations.

The bredent casting technique (According to Sabbath) simplifies reliable scientific data and experience in the dental casting process. The main purpose of the evening is to provide practical knowledge for the dental technician rather than scientific or metallurgical formulas and processes.

Venue TBC

To register please contact Bredent UK on 01246 559599
This is a free event and places are limited so register early to avoid disappointment.
