MGDS RCSED FFGDP (UK)
DIP CONS SED (NCL)

EVENT OUTLINE

This course is the perfect opportunity to watch live surgery according to the SKY fast & fixed concept and put your questions to Mark Willings and Jon Swarbrigg.

Mark's experience is now well over 5,000 implants placed. He has been working with bredent, following the SKY fast & fixed protocol and has more than 150 cases documented.

The day will demonstrate the clinical, surgical and technical steps of carrying out a full arch immediate load case to both dentists and technicians and their wider teams.

Imran Sharif will undertake live periodontal surgery for the management of peri-implantitis and discuss specialist surgical techniques for treating peri-implantitis.

FULL ARCH IMMEDIATE LOAD

SKY fast & fixed
IMPLANT SYSTEM

ON THE DAY

- 8.30 Registration – breakfast and refreshments.
- 9.00 Welcome introduction by Jon Swarbrigg.
